

Zug Commodity Association **Online Event - Tuesday, 22 June 2021, 1pm**

Commodity, Covid-19 and decarbonization Impact of Covid-19 on trade logistics

Trade logistics are the key enabler to the international trade in goods as are related operations, such as border controls and insurance. In the current environment we have seen a significant upheaval in international transportation.

We will learn more about the impact of the global pandemic on trade logistics and thus our businesses today and tomorrow as 'crisis' migrates to recovery.

We will also receive news on the new decarbonization regulations adopted at MEPC 76, as well as an overview of what the EU and USA are doing on decarbonization of shipping.

In cooperation with:

Speaker

Jakub Walenkiewicz

Principal Market Analyst who will cover the Market in & post Covid: Jakub Walenkiewicz is Principal Market Analyst in DNV GL and a regular speaker at maritime industry events. He has more than 19 years of research experience and writes articles, develops statistics and assesses influencing factors between shipping, international trade and energy markets. His analysis of commercially sensitive data is used to evaluate supply and demand trends and synergies between the maritime and offshore industries. Mr. Walenkiewicz holds a master's degree in Naval Architecture.

Eirik Nyhus

Director Environment who will update us on the MEPC 76 results and implications for business: As Director Environment Eirik Nyhus has key responsibilities on maritime environmental regulations and related international policy developments. Extensive external stakeholder engagement responsibilities, focusing on governmental authorities and key DNV customers. Currently supporting the Norwegian government in its work on air emissions as an adviser to the Norwegian IMO MEPC delegations, and he is the DNV member in International Association of Class Societies Expert Group on Environmental issues.

Moderation

Jeroen van der Veer

Area Business Development Manager: Covering the Area BeNeLux, Switzerland and France Jeroen acts as the liaison between clients and DNV. Supporting clients with the transformation journey that lies ahead on digitalization and decarbonization. Before taking this role he was managing DNV's Maritime operations in BeNeLux. With a background as Naval Architect and before being part of Management in 2008, his career track took him through different roles from a yard project manager to survey work on all vessel types through the entire lifecycle.
