

CME Group and Commodity Club Webinar

DRIVERS OF VOLATILITY IN THE GRAIN AND OILSEED MARKETS – A LONG- AND SHORT-TERM PERSPECTIVE

CME Group, in collaboration with Commodity Club Switzerland, invites you to attend a webinar on Thursday, July 8.

We will be joined by **Dr Marco Haase**, Senior Researcher at the University of Basel, and **Erik Norland**, Senior Economist at CME Group, to explore how macro factors affect grain market prices and volatility.

During the event, we will look at historic and current business cycles, inflation, monetary regimes, currencies, and how these factors coincided with volatility shifts. We will also discuss American, Brazilian, and Chinese market fundamentals and, specifically, their impact on corn, wheat, and soybean markets.

Register to attend using the button below. Further instructions on joining this online event will be provided following registration.

If you have any questions, please email events@cmegroup.com.
