

The banner features a dark background with a red and white diagonal split. On the left, it displays logos for 'COMMODITY TRADING WEEK COMRISK COMMODITY RISK MANAGEMENT' and 'COMMODITY TRADING WEEK COMMODITY TRADE FINANCE'. The main text reads 'Meet us at Commodity Risk & Finance Online!' followed by 'Join 1000+ Risk & Trade Finance Experts!' and 'ONLINE: 11-12 January 2023'. On the right, the 'COMMODITY CLUB - Center of Competence -' logo is shown above the text 'ASSOCIATION PARTNER'. At the bottom, there are two colored bars: a red one with the URL 'commoditytradingweek.com/com-ctf' and a yellow one with the hashtag '#commoditytradingweek'.

Invitation to: Commodity Risk & Finance Online Online, January 11-12

Dear Commodity Club Members & Experts,

Due to circumstances beyond the Organiser's control, we're getting in touch to let you know that Commodity Trade Finance online webinar series won't be going ahead as planned. But, we have some good news - the [Commodity Risk & Finance online webinar series](#) will be combining topics focusing on CTRM strategies, risk management alongside Trade Finance and Sustainable Finance.

This combined online webinar series of ComRisk and Commodity Trade Finance will now be taking place on **11th-12th January 2023** and will bring together **15+ expert speakers** and 4 high value content live webinars focusing on:

Digital innovation in commodity risk - what can we expect?

This panel will bring together experts to discuss the most practical use cases of AI, the latest cyber security updates, whether blockchain has proven its value and how risk teams can best exploit this technology.

Risk management in commodity trading in unprecedented times (Take 3 - 2023 edition)

A conversation examining how the risk management community is responding to the latest issues impacting the global economy and the risk management challenges going forward.

Easing access to trade finance through digitalisation

Our expert speakers will discuss an overview of digital tools in the market and which might be most useful for your organisation as well as discussing some use cases in how AI and ML can support credit assessments, how we can improve electronic documentation and the views of banks and lending institutions.

Greening trade finance - how are we adapting?

A discussion around whether trade finance is becoming more sustainable, ESG and green finance and what this means for commodity trade finance, how digital technology helps drive sustainability in trade finance and the risks in climate change and increase in natural disasters, droughts, floods etc.

We look forward to seeing you Online!
