SPEAKERS

5
CONFERENCES

100+
HOURS OF CONTENT

Bringing together 10+ years of commodity trading events under one roof in a digital setting – Commodity Trading Week 2021 provides firms involved in the trade, production or procurement of commodities with 100's of hours of free high value content and best practices, as well as the opportunity to meet and grow your personal networks with 1000's of other commodity trading professionals worldwide.

This year's program features unique, practical conferences focused on Risk, Digitalisation, Logistics and Trading strategies, with interaction and shared learning at the heart of each agenda. A range of digital networking and social events take place throughout the week allowing you to connect with new and old industry colleagues. For further information on how to participate as a speaker, sponsor or attendee please get in touch with Ben Hillary on +44 (0) 20 7111 1615 or ben@commoditiespeople.com

BRINGING TOGETHER 5 LEADING EVENTS IN COMMODITIES TRADING UNDER ONE ROOF

ONLINE: 10-11 June **1000+**
ATTENDEES

6th
Annual

Bringing together the global commodity risk community for the past 6 years to assess best practises and develop shared approaches to emerging risks. With an unprecedented period of geopolitical volatility, pandemic and black swan events, coupled with ongoing sustainability challenges and technological innovation, ComRisk takes on a heightened importance in 2021.

ONLINE: 7 June **1000+**
ATTENDEES

2nd
Annual

After a slow start, commodity trading's digital revolution has very much arrived. With such a vast array of digital initiatives, and in some cases technology chasing a business case it is difficult to know where to focus your organisations innovation strategy. DigiCom cuts through the hype, practically assessing key initiatives and real life case studies, ensuring that your firm can gain a true competitive advantage from technology disruption.

ONLINE: 8 June **500+**
ATTENDEES

In every area of the supply chain we are seeing dramatic change, with manual, paper based processes increasingly becoming the exception rather than the norm. This forum assesses best practises around transportation, storage, logistics and outlines where the greatest opportunities for automation, optimisation and visibility presently exist, as well as examining where we can expect further benefits to come from in the years ahead.

ONLINE: 9 June **500+**
ATTENDEES

Bringing together front office leaders and experts from across commodity trading to assess shared challenges and solutions, as well as looking at commodity specific market trends, black swan events, price drivers, data science, disruptive technology and more. Small group discussions and breakouts allow for connections to be built within and outside of your commodity classes.

ONLINE: 10 June **25+**
ATTENDEES

Closed door roundtables open to those responsible designing their firms risk management strategy at the highest level. An interactive discussion based agenda facilitated by industry experts allows for knowledge sharing and the development of best practises, for the benefit of the whole commodity trading industry.
